

# The Inevitable Future of GLOBAL VIDEO CONFERENCING

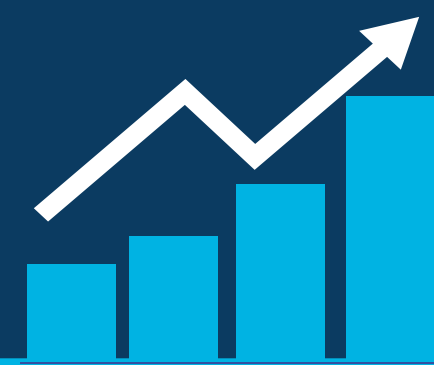

Industries using Video Conferencing as their preferred tool

## What is the future of Global Video Conferencing (GVC)?

The **GVC market is expected** to jump to a whopping figure of **\$14.58 billion by 2029** from **\$6.87 billion as of 2022** exhibiting a **CAGR of 11.3%!**

Source: Fortune Business Insights

With remote working culture likely to gain traction, organizations are now spending glaringly more on telecommunications technology.

**"My prediction would be that over 50% of business travel and over 30% of days in the office will go away,"** - Bill Gates
