

DIGITAL ENGINEERING: BUILT IOS AND ANDROID MOBILE APPLICATIONS FOR HEALTH AND WELLNESS MONITORING TOOL

CLIENT:

The client is one of the world's most successful healthcare companies, with 130 years in operation and 130,000 people worldwide

CHALLENGE:

To design and develop the platform in line with their vision to build a comprehensive health and wellness monitoring tool.

SOLUTION:

We designed and developed iOS & Android mobile apps with the backend for the platform. With managing structures & non-structured data in the backend, we integrated wearable devices with the platform allowing users to track their daily activities. The project revolved around HIPAA-compliant, high-performance & secure infrastructure.
