

DIGITAL ENGINEERING: DEVELOPED IOS AND ANDROID MOBILE APPLICATIONS TO HELP USERS PRACTICE YOGA

CLIENT:

A specific school of Yoga, derives its name by focusing on awakening energy through the regular practice of meditation, Pranayama, chanting Mantras, and Yogasana.

CHALLENGE:

To help build and maintain their iOS and Android apps for several thousand active users who practice Yoga regularly.

SOLUTION:

We developed both Android & iOS applications for the users to register & log in along with providing all the UI/UX designs for the applications. We provided architecture design & solutions by leveraging rich, dynamic infrastructure and scaled the product over several years. We also deployed the applications in the cloud.
